
Diagnostic full physical g (strict gate failed) and verified declared-coordinate PᵀTg
Gray = fixed coordinates; density truth is constant, so its derivative is not a density image
a Vp: Full physical g
b Vs: Full physical g
c Density: Full physical g
d Vp: Actual PᵀTg
e Vs: Actual PᵀTg
f Density: Actual PᵀTg
Depth (km)
Original x (km)
objective / [m/s]
objective / [kg/m³]
